## GOLD

Gold trading range for the day is 37319-38067.

Gold gained as investors remained cautious about the developments in the United States and China trade negotiations

China will likely hit \$50 billion in purchases of U.S. agricultural products, U.S. President Donald Trump said on after earlier announcing that he would roll back scheduled tariffs on Chinese imports

Initial claims for state unemployment benefits surged 49,000 to a seasonally adjusted 252,000 for the week ended Dec. 7

Dealers in India offered a discount of up to \$2 an ounce on official domestic prices, compared to a premium of \$1 last week.

## SILVER

Silver trading range for the day is 43635-44615.

Silver gained as the dollar shed ground digesting news about the U.S. and China agreeing on a trade deal and the Conservative Party's emphatic victory in the U.K. general election.

There are reports said an agreement in principle had been reached on a phase one trade deal between the U.S. and China.

U.S. producer prices were unexpectedly unchanged in November as increases in food and gasoline prices were offset by declining costs for services

The U.S. central bank indicated that borrowing costs were likely to remain unchanged at least through next year
