GOLD

Gold trading range for the day is 47005-48289.

Gold prices settled down as rising bond yields amid a surge in new home sales in the U.S. dented demand for the safe-haven asset.

Rising coronavirus infections in countries from India to Japan, which led to renewed restrictive measures and clouded the global economic growth outlook

U.S. factory activity powered ahead in early April, though manufacturers increasingly struggled to source raw materials and other inputs

India's physical gold demand faltered as strict restrictions to contain the spread of COVID-19 kept buyers away

SILVER

Silver trading range for the day is 67541-70257.

Silver prices settled down as traders remained on the sidelines ahead of a U.S. Federal Reserve meeting next week.

Sales of new U.S. single-family homes rebounded more than expected in March, likely boosted by an acute shortage of previously owned houses on the market.

ECB President Christine Lagarde said the near term outlook for the euro area economy remained clouded with high uncertainty

The euro zone's recovery from its pandemic-induced economic downturn was much stronger than expected in April
