CRUDEOIL

Crude oil trading range for the day is 4625-4723.

Crude oil edged higher after OPEC and its allies projected a strong recovery in global oil demand this year.

The upside was capped by growing concerns about fuel demand.

OPEC+ kept its forecast for global oil demand growth for this year unchanged, projecting it to rise by 6 million barrels per day (bpd) for 2021

Kuwait oil minister says crude demand improving

NATURAL GAS

Natural gas trading range for the day is 208.7-225.3.

Natural gas rose buoyed by record exports and declining production, despite forecasts for milder weather and lower heating demand over the next two weeks.

Colder than usual April weather last week boosted heating by so much that utilities may have taken the unusual step of pulling gas from storage.

The U.S. EIA said utilities added 38 bcf of gas into storage during the week ended April 16.

Data provider Refinitiv said gas output in the Lower 48 U.S. states averaged 91.4 billion cubic feet per day (bcfd) so far in April
