

Nifty Outlook

Markets witnessed fireworks all-around as the government set the roadmap for the economic recovery in the Union Budget by focusing on growth. After the initial downtick, the benchmark traded buoyant for most of the session and gained noticeable momentum after the budget speech got over. The FM in her budget speech prioritize growth and allocated funds for sectors such as infrastructure and healthcare. Further, investor's sentiments improve as no additional taxes on LTCG, STT, COVID cess etc was imposed. Consequently, the Nifty ended near day's high at 14,281 levels, with healthy gains of 4.7%. All the sectors ended in positive with banks, capital goods and realty being the top gainers. Also, the broader market indices ended on an optimistic note in the range of 2-3%.

We expect this budget rally to extend further however participants should be selective in their approach now. Going ahead, global cues and corporate earnings would also be on the radar. The way the banking index has moved on the budget day, we feel it could lead the next leg of the rally alongside infra counters.

Investment Pick - Nippon Life India Asset Management Ltd.

- Nippon Life AMC reported decent set of numbers in Q3FY21 which was largely in-line with our expectations. Its mutual fund QAAUM grew by 6.5% QoQ led by healthy growth in both equity as well as debt AUM which grew by 7.3% and 5.3% QoQ. Further, despite lower yields, PAT grew by 42.7% QoQ driven by higher other income and cost saving initiatives.
- Going forward, we remain positive on Nippon AMC as it plans to regain its lost market share through a series of measures. In the long run, its consistent increase in equity assets, industry leading retail assets and strong presence in B-30 cities augurs well for the growth prospects of the company. Recommend Hold.
