GOLD

Gold trading range for the day is 48281-48677.

Gold prices will remain under pressure as the dollar and U.S. Treasury yields jumped after Fed officials projected interest rate hikes sooner than expected.

Concerns about rising prices have risen in the face of U.S. data showing a recent spike in consumer and producer prices.

For the second time in less than a decade, the Fed is getting ready to launch a debate over how and when to sunset a massive asset-purchase program.

Demand for gold from jewellers and central banks will recover in 2021 but remain below pre-pandemic levels

SILVER

Silver trading range for the day is 71026-71982.

Silver will be under pressure as the Federal Reserve raised its forecast for consumer price growth for the current year and 2022.

The 10-year U.S. Treasury note was down 0.1 percent after the release of mixed U.S. economic data.

Reports showed Americans slowed their spending in May and producer prices rose at their fastest annual clip in nearly 11 years in the month.

Data showed U.S. retail sales fell more than expected in May
