KEDIA ADVISORY

Cotton Seed Oil Cake Report

Thursday, March 25, 2021

Fundamentals

Cotton yesterday settled down by -1.86% at 21090 after Cotton Corporation of India (CCI) reduced the selling price of cotton as a "one-time correction." Cotton farmers in the country have taken advantage of higher global price for the natural fibre this season (October 2020-September 2021), resulting in at least 80 per cent of the production being sold till now. As a result, most of the ginning mills in north and western parts of the country that process kapas (raw cotton) into ginned cotton are likely to shut operations from April this year. According to an estimate by the Cotton Association of India, a body of traders, arrivals this year since October 1 were 298.89 lakh bales (of 170 kg). The arrivals are against CAI's projection of the cotton crop production at 358.50 lakh bales against 360 lakh bales last season. The Committee on Cotton Production and Consumption (CCPC), a body representing all stakeholders in the textile industry including government officials, has estimated this season's crop at 371 lakh bales (358,50 lakh bales last season). Arrivals have been higher despite record carryover stocks from last season. While CAI has pegged the carryover stocks at 115 lakh bales, the CCPC has estimated it at 97.95 lakh bales. In spot market, Cotton dropped by -170 Rupees to end at 21630 Rupees. Technically market is under fresh selling as market has witnessed gain in open interest by 4.64% to settled at 7708 while prices down -400 rupees, now Cotton is getting support at 20970 and below same could see a test of 20860 levels, and resistance is now likely to be seen at 21260, a move above could see prices testing 21440.

Trading Idea for the day

Cotton trading range for the day is 20860-21440.

Cotton prices dropped after Cotton Corporation of India (CCI) reduced the selling price of cotton as a "one-time correction."

Cotton farmers in the country have taken advantage of higher global price resulting in at least 80 per cent of the production being sold till now

According to an estimate by CAI, arrivals this year since October 1 were 298.89 lakh bales.

23390.00

Negative

-0.83

108220.00 Fundamentals

-1.68

Cocudakl yesterday settled down by -0.83% at 2376 as the market is getting cotton supplies from the Cotton Corporation of India. However downside seen limited due to demand from animal feeders and weak supply. Considering the rise in binola and supply, the possibility of a fall in the coming days may be less market compelling. Export prospects remain better for Indian cotton and domestic demand continues improving post lock down phase. As compared with cotton seed, the oil cake (cotton oil cake) prices have seen limited upside, since this commodity cannot be stored for a longer period, hence the stockists and traders generally prefer to sell without much price hikes, or even at discounts, whenever buying interest reduces. The USDA's last month's release conveyed lowering of India's Cotton production estimate by 500,000 bales after considering the rising instances of pest infestation. Pakistan's production is estimated lower by 200,000 bales higher while Australia's production may be 100,000 bales higher. World consumption is projected 1.5 million bales higher versus previous estimate with China's forecast being 1.0 million bales higher, reflecting growing domestic textile demand and exports. There are optimistic views hopes that demand for cotton products in near term shall be robust from the global economic rebound amid concerns over chances of a significant reduction in the ending inventory. In Akola spot market, Cocudakl dropped by -9.55 Rupees to end at 2463.25 Rupees per 100 kgs. Technically market is under long liquidation as market has witnessed drop in open interest by -1.68% to settled at 108220 while prices down -20 rupees, now Cocudakl is getting support at 2365 and below same could see a test of 2353 levels, and resistance is now likely to be seen at 2391, a move above could see prices testing 2405.

Trading Idea for the day

Cocudakl trading range for the day is 2353-2405.

COCUDAKL dropped as the market is getting cotton supplies from the Cotton Corporation of India.

However downside seen limited due to demand from animal feeders and weak supply.

Considering the rise in binola and supply, the possibility of a fall in the coming days may be less market compelling.

General Disclaimers: This Report is prepared and distributed by Kedia Stocks & Commodities Research Pvt Ltd. for information purposes only. The recommendations, if any, made herein are expression of views and/or opinions and should not be deemed or construed to be neither advice for the purpose of purchase or sale through KSCRPL nor any solicitation or offering of any investment /trading opportunity. These information / opinions / views are not meant to serve as a professional investment guide for the readers. No action is solicited based upon the information provided herein. Recipients of this Report should rely on information/data arising out of their own investigations. Readers are advised to seek independent professional advice and arrive at an informed trading/investment decision before executing any trades or making any investments. This Report has been prepared on the basis of publicly available information, internally developed data and other sources believed by KSCRPL to be reliable. KSCRPL or its directors, employees, affiliates or representatives do not assume any responsibility for, or warrant the accuracy, completeness, adequacy and reliability of such information / opinions / views. While due care has been taken to ensure that the disclosures and opinions given are fair and reasonable, none of the directors, employees, affiliates or representatives of KSCRPL shall be liable for any direct, indirect, special, incidental, consequential, punitive or exemplary damages, including lost profits arising in any way whatsoever from the information / opinions / views contained in this Report. The possession, circulation and/or distribution of this Report may be restricted or regulated in certain jurisdictions by appropriate laws. No action has been or will be taken by KSCRPL in any jurisdiction (other than India), where any action for such purpose(s) is required. Accordingly, this Report shall not be possessed, circulated and/ or distributed in any such country or jurisdiction unless such action is in compliance with all applicable laws and regulations of such country or jurisdiction. KSCRPL requires such recipient to inform himself about and to observe any restrictions at his own expense, without any liability to KSCRPL. Any dispute arising out of this Report shall be subject to the exclusive jurisdiction of the Courts in India.
