**GOLD**

Gold trading range for the day is 47561-48339.

Gold prices rose after last week's miss on the U.S. jobs growth numbers kept the dollar under pressure

U.S. jobs growth slows sharply in April

Dollar hovers close to over 2-month low

Physical gold demand in India dived as shops shuttered and people turned cautious due to surging coronavirus infections

**SILVER**

Silver trading range for the day is 70635-73153.

Silver prices firmed up as a disappointing U.S. employment report signaled that interest rates will likely stay low for longer.

Friday's U.S. jobs report was as massive disappointment as employers added just 266,000 jobs in April

The weak jobs report suggested the economy is still in recovery mode and bolstered the case for the Federal Reserve to keep interest rates low.

Investors await reports on consumer and producer prices, retail sales, industrial production and consumer sentiment this week.
