GOLD

Gold trading range for the day is 48062-48612.

Gold eased from highs as U.S. yields inched higher, but a weaker dollar and inflation fears kept a floor under bullion prices.

U.S. homebuilding fell more than expected in April, likely pulled down by soaring prices for lumber and other materials

Inflows into gold exchange-traded-funds indicated investors were buying gold to hedge against inflation worries

SPDR Gold Trust holdings at 1-1/2-month high

SILVER

Silver trading range for the day is 71889-74875.

Silver dropped on profit booking as US Fed's April meeting minutes will also be monitored for further clarity on monetary policy outlook and policymakers' views on inflation

Dallas Federal Reserve President Robert Kaplan reiterated his view that he does not expect interest rates to rise until next year

Global silver demand will rise this year to its highest since 2015 as jewellery and industrial offtake rebounds after the coronavirus pandemic

Strong industrial and jewellery demand will provide a floor for the market but investor demand will be the biggest factor determining prices.
