### Technical outlook

Natural gas daily chart has formed “Rounded top chart” pattern. Over the last few sessions, we have seen some rapid movements, where the last one had traded higher and closed in green. The market is expected to continue on the bullish momentum based on the price action, once break above a key

resistance holding near 380. The upside rally could be testing all the way through 385-390 levels in the upcoming sessions. Alternatively, if the market struggles to break the resistance level, then it might retest the same and turn bearish/sideways once again. Key support holds at 360.
